## EXPERIENCE

### **Database Programmer Analyst, University of Missouri-System; Columbia, MO — 2017-Present**

Maintain Peoplesoft Student system for student and staff-facing applications. Oversee integrations with third-party payment processors. Develop new, and enhance existing, applications in order to reduce manual effort, correct bugs, provide new functionality, etc.

### **Database Programmer Analyst, Missouri Public Defender; Columbia, MO — 2014-2017**

Maintained in-house developed LotusNotes-based case management system. Developed applications to automate file transfers between law enforcement agencies and Public Defender. Provided end-user support on a limited basis.

### **A-Frame Manager, Les Bourgeois; Rocheport, MO — 2010-2014**

Managed an outdoor wine tasting and picnic establishment. Handled job duties and scheduling for a small staff. Maintained wine and food inventories, including forecasting usage and ordering. Worked with large groups and catered events. Scheduled live music, designed menus, maintained large outdoor space.

## EDUCATION

### **Columbia College; Columbia, MO — B.S. Computer Information Systems - 2014**

## SKILLS

I am proficient in a few programming languages and am able to quickly pick up new ones. I have a good foundation in several IT disciplines and am an effective communicator across groups.
